ABDIIBRAHIM

Dear guests and colleagues

On behalf of the Iraqi association for medical research and studies I welcome all of you in the Third IAMRS International Conference (27-28 March 2020), it's my honor to announce that this Conference will be one of the best events in medical territory in Iraq.

The Conference will be a platform for IAMRS members and other participants to discuss the current situation, challenges and solutions relating to Iraq health issues in light of the relevant national measures. IAMRS will seek to share experience and best practices on their work to promote health, medical research and medical actions related to the health of Iraqi population. Further, discussions will include practical suggestions on how to eliminate such problems.

The main conclusions of the conference will be reflected and incorporated into the 2nd Basrah declaration to be considered and adopted by the participants at the conference and national ruling establishments.

We are proud to say that the articles that will be presented in this Conference are of high quality and informative and meet the Conference title (Health Challenges in Iraq). I urge you to spend a wonderful, informative and exciting couple of days in the lovely city (Basrah).
